## Adding South Slope TvNow to Your Apple TV

To add the South Slope TvNow app to your Apple TV, press the **TV/Control Center** button and use your clickpad to open the App Store. Select the Search option on the top-level menu and use the on-screen keyboard to type in **South Slope TvNow**.

Select and click the **Install** button to begin the installation. Once the installation is completed, you will be prompted for a **Login** and **Passphrase**. If you haven't received these, please contact South Slope at 319-626-2211.

Once you have connected your first device, you can create your own login and passphrase for new devices. This is detailed on page 3, How to Activate a New Device.

### Siri Remote (2nd generation)

## Navigating Apps Content and Lists

You can swipe **left, right, up, down, or swipe** to navigate through your South Slope TvNow screens. To return to the previous screen press the **back** button. To return the Apple TV home screen press the **TV/Control Center**.

## Watching South Slope TvNow

From Home Screen, use the clickpad to highlight the **South Slope TvNow** icon and to open your Channel Guide.

Navigate **up or down** on the clickpad to highlight a channel that you want to watch, then press the **play/pause** button to watch the program.

## Channel Surfing

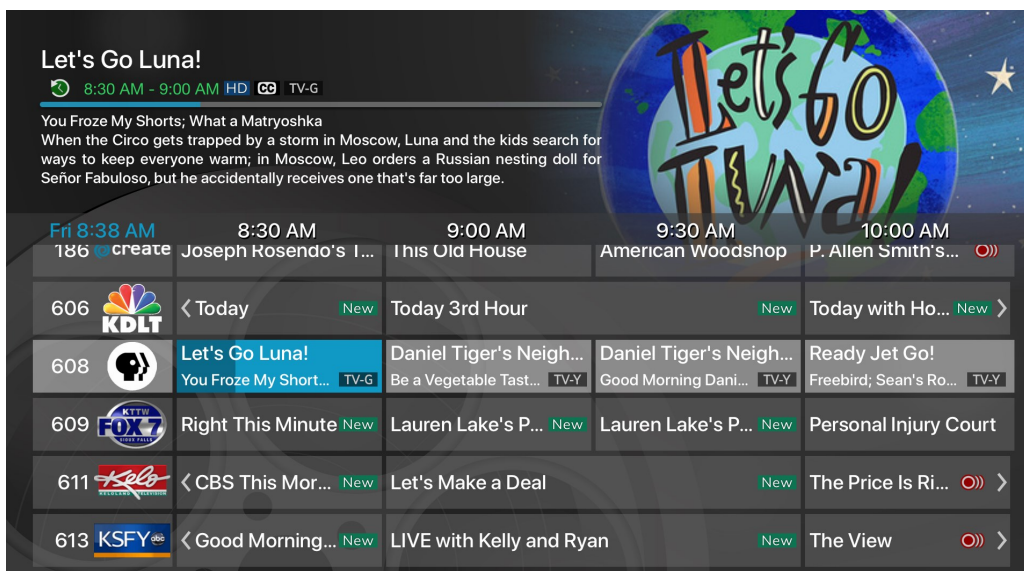

If you want to quickly move to a higher or lower numbered channel in the guide, from a currently airing program, press **up** on the clickpad go to a higher numbered channel, and press **down** on the clickpad to move to a lower numbered channel.

## For You Feature

This feature is "For You" if you prefer a poster view format instead of a traditional Channel Guide look. For You gives you quick access to Channels You've Watched, Channels Popular in Your Area, Recent Recordings, Movies On Now, and Movies On Soon. To access For You from the Program Guide, press the **back** button on the remote and use the clickpad to select the **For You** option.

## On-Screen Guide Management

You can use the clickpad on any program highlighted in blue for additional options. Press **watch** to view a current-airing program. **Highlight record** to set a recording for this program. Highlighting and selecting **search** allows you to see other times when the program is available to watch or to set a recording for the program.

## Program Guide Navigation

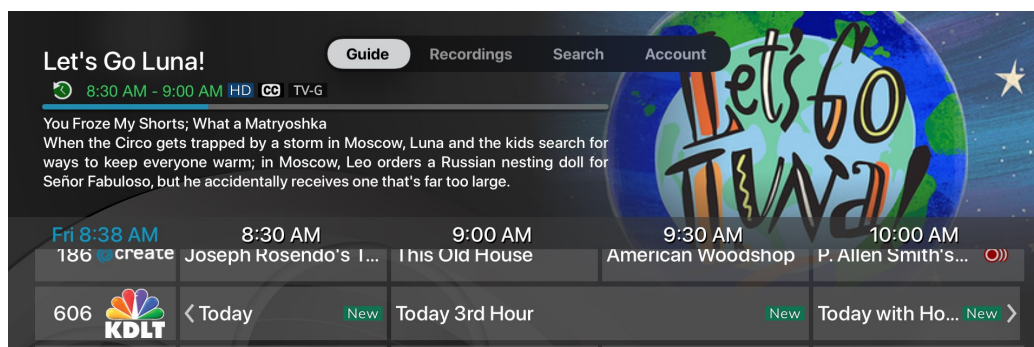

You can use the clickpad to **press up, down, left, right or swipe**, to navigate through the on-screen Program Guide.

## Recording Programs From the Guide

Select a currently-airing or upcoming program, then highlight and select **record** to create a recording for this program. See the Recording Programs sections of this guide for Recording instructions.

## Tab Bar

From the Program Guide, press the **back** button to open the Tab Bar. The Tab Bar allows you to navigate **left or right** to access: For You, Guide, Recordings, Video on Demand, Search, and Account. These options which will be covered in subsequent pages of this guide.

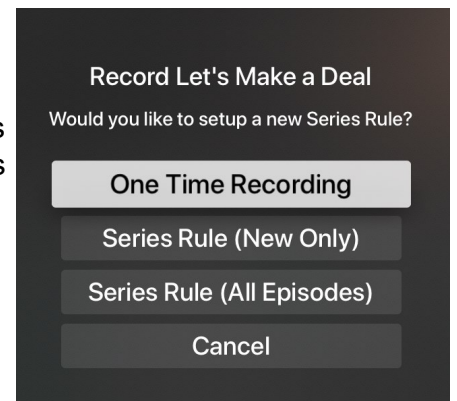

## Account Option - How to Activate a New Device

First add the South Slope TvNow using the page 1 instructions. From a previously activated device, open the Account screen, scroll down to highlight and select **add device** and use the displayed Login and Passphrase to activate the new device.

## RECORDING YOUR PROGRAMS

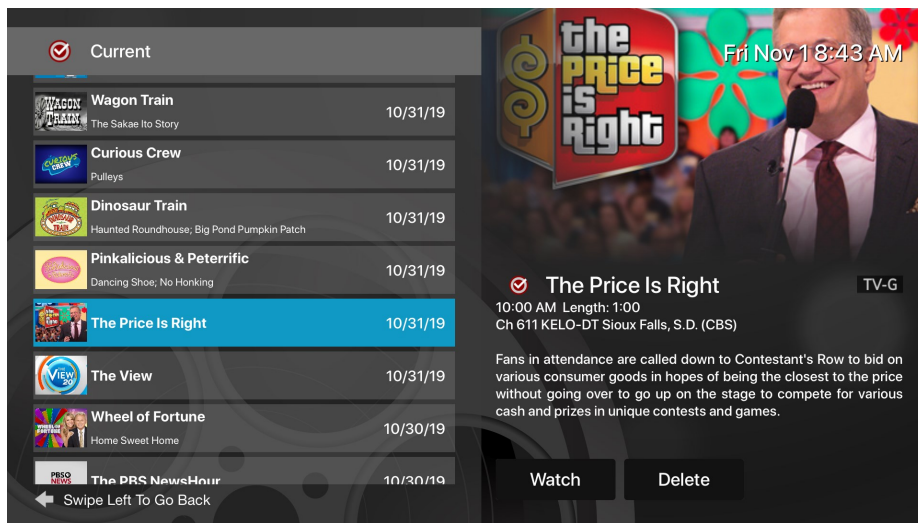

### Making a Recording

When you select **Record**, a screen will display that give you the options for setting a series rule for this program. If you don't want to set a series rule for this program, select **One-Time Recording**. To further manage this recording, go to the Tab Bar and select the **Recordings** option.

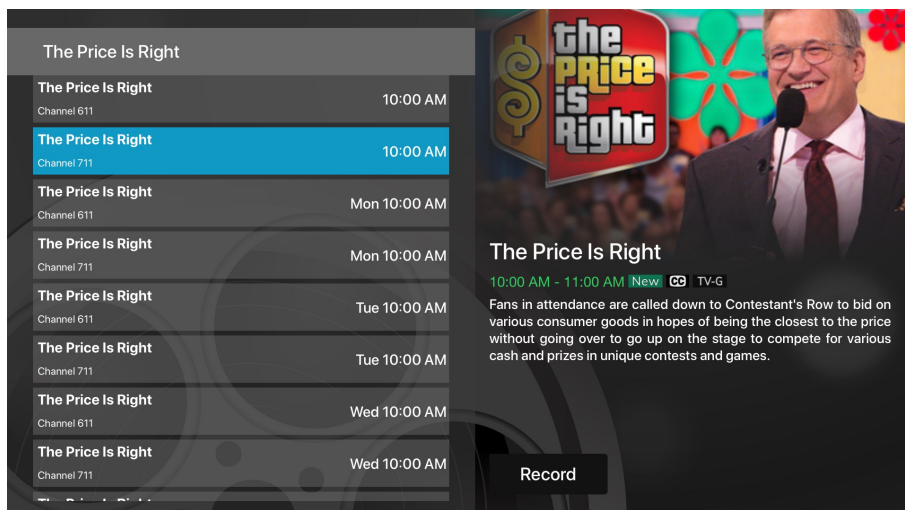

### Watching Your Recordings

Recordings can be viewed from either the **Recordings** or **Search** screen options. Select **Recordings** from the Tab Bar to open the Recordings screen. Highlight and select **Current** to open your recorded program list. Scroll through the list, select the program you want to watch, and press the **play/pause** button on the remote to start watching the program. You can also delete the program by navigating to the right, and then highlighting and selecting **delete**. You will receive a prompt asking you to confirm the deletion.

### Search Option

From any of your Search options you can see a list of currently airing programs and future times for a specific program. Future programs can be recorded by highlighting and pressing the **record** button. For programs that are currently airing, you can either watch the program or select to record it.

## MANAGING YOUR RECORDINGS

### Current Recordings

To watch or delete current recordings, go to the Tab Bar above the Program Guide and select the **recordings** option. Highlight and select **current** to open the list of your current recordings. From this list you can either watch or delete your recorded programs by highlighting the option with your clickpad. If you choose to delete a program, you will receive a prompt asking to confirm your deletion.

### Upcoming Recordings

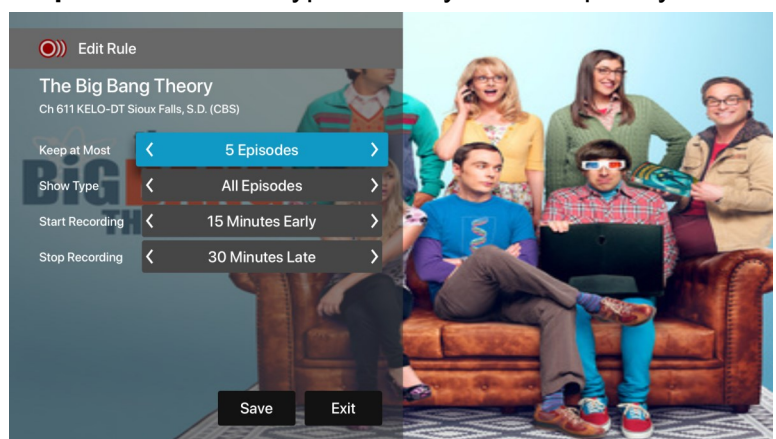

Use the Upcoming feature to manage settings for your future recordings. From the recordings screen, highlight **upcoming** and open the list of Upcoming Recordings. Scroll through the list to highlight and select an Upcoming Program recording that you want to manage. If there are multiple recordings, scroll and highlight the one you want to manage, highlight and select **edit** to open an Edit Recording window. To assure that you don't miss the beginning of a program, you can change the Start Recording time by highlighting and selecting **Start Recording**. This will open a screen that gives you options on how Early, Late, or On Time you want a program to begin. Scroll through to highlight and select your option. The Stop Recording functions the same way as the Start Recording feature and is beneficial when watching sporting events. Once you have finished your changes, highlight and select **save**.

### Rules

Use the **Rules** feature to manage the episodes of a series that you want recorded automatically. From the Recordings screen, highlight and select **rules** to open your list of Series recordings. Scroll through the list; highlight and select the program series that you want to edit. At this point an **Edit Rule** screen will open. Highlight and select **Keep at Most** to choose a maximum number of episodes that you want to keep of this series, or you can choose to keep **All Episodes**. Show Type allows you to keep Only New or All Episodes of a series.

You can also choose to set the Start and Stop Recording times for all episodes in this series. This option works the same way as it does in the **Upcoming Recordings**. Once you have finished your changes, highlight and select **save**.

## Restart TV

This popular feature lets you go back to the beginning of any currently airing or in-progress recorded program that has the Restart Option.

While watching live TV, click the **left dot** on the clickpad, to open your control options, click the **bottom dot** or swipe **down** for control access to the Restart feature. Swipe or click **right** to highlight the Restart icon, press the **center** of your clickpad to Restart to the beginning of the program.

You can also use this feature when you are watching an in-progress or previously recorded programs.

Programs that have the Restart option will display the Green Restart icon in the Guide and program description. Some programs because of programming restrictions don't allow for the Restart function. Please contact our office if you have questions regarding this.

## Closed Captioning CC

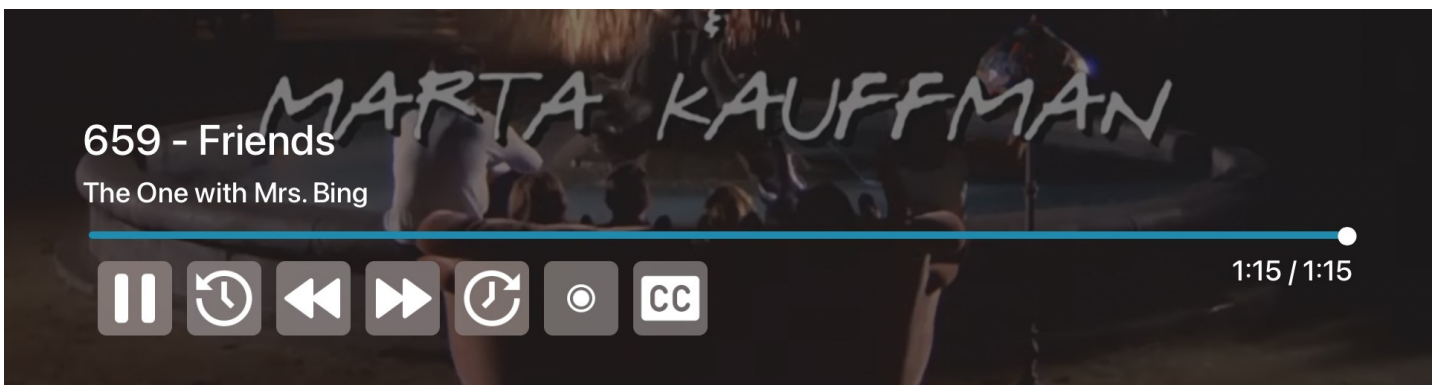

While watching live TV, click the **left dot** on the clickpad, to open your control options, click the **bottom dot** or swipe down for control access to the Closed Captioning feature. Swipe or click **right** to highlight the Closed Captioned icon, press the **center** of your clickpad to enable Closed Captioning. Follow the same procedure to turn Closed Captioning Off.

## Pause Live TV

Life happens and there may be times when you need to take care of something while watching your favorite program. Use the Pause Live TV feature by pressing once the **play/pause** button on your remote control. When you want to restart your paused program just press the **play/pause** button again to restart the program where you left off.

## Fast Forward and Rewind Features

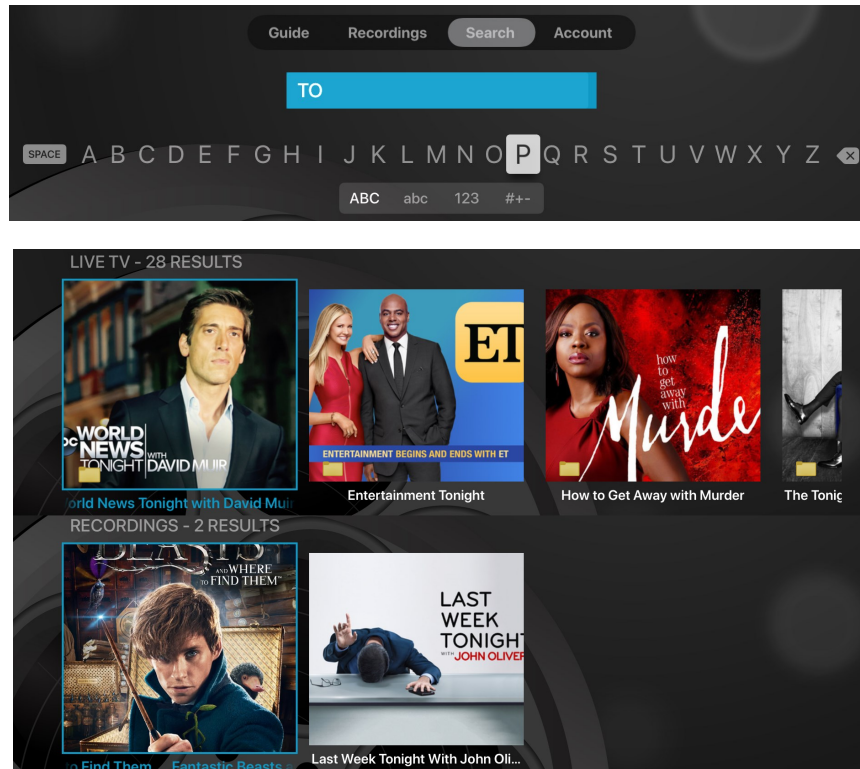

There may be times when you want to go back and see that exciting play in the game or fast forward through commercials - don't tell the advertisers! To use this feature during an in-progress or recorded program, click the **left dot** on the clickpad, to open your control options; using your clickpad, swipe **left** to rewind and **right** to fast forward. To be more precise, click the **left dot** on your clickpad to rewind in 30 second increments and click the **right dot** to fast forward in 30 second increments.

## Program Search Features

Use the Search feature from the Tab Bar to find Live, Recorded, and Future programs that can be recorded. Highlight and select **Search** to open the program search. Use your clickpad and navigate **left or right** to highlight letters that correspond with the program you are searching for to see results. You can also use the voice activation feature by holding the **microphone** button and clearly saying the name of the program that you are searching for. *Note: Dictation mode must be activated in your Apple TV General Settings and the letter bar search must be displayed to use the microphone feature.*

The results will include Live and Future times for the programs that match your search. Use your clickpad to select your program either from the **Live TV** or **Recordings** results. Follow the instructions in this guide for watching or recording any of these programs.

## Frequently Watched Programs

When watching a live program, if you would like to view one of your frequently watched channels without going back to the guide, swipe **down** on the clickpad to see a list of your favorite channels. Click or swipe **left or right** on your clickpad to highlight the new channel that you would like to watch, and press the **play/pause** button or the center of the clickpad to switch to this channel.
